CSET419 - Lab 8: Neural Art with GANs (FAST VERSION)
=====================================================
Completed: {datetime.now().strftime('%Y-%m-%d %H:%M:%S')}

MODELS USED:
1. BASIC GAN: Fast DCGAN (Lightweight, trained in ~5 mins)
   - Architecture: 5-layer ConvTranspose Generator
   - Training: 15 epochs with optimized hyperparameters
   - Features: Dropout for stability, higher LR (0.0004)

2. ADVANCED GAN: StyleGAN2-ADA (Pre-trained, no training time)
   - Source: NVIDIA Official Pre-trained CIFAR-10
```

```
   - Features: Mapping network, AdaIN, style mixing
   - Instant generation with high quality

LATENT SPACE EXPLORATION:
✓ 10 Random artistic samples from each model
✓ Linear interpolation (smooth transitions)
✓ Spherical interpolation (constant velocity)
✓ Latent vector arithmetic demonstrations

FILES GENERATED (All in Google Drive):
- {output_dir}/dcgan_fast/          : 10 artistic samples + grid
- {output_dir}/stylegan_pretrained/ : 10 StyleGAN samples (if
downloaded)
- {output_dir}/interpolations/      : Smooth transition frames
- {output_dir}/models/              : Trained Fast DCGAN weights
- {output_dir}/training_samples.png : Real CIFAR-10 data
- {output_dir}/loss_curve.png       : Training progress
- {output_dir}/final_comparison.png : Side-by-side comparison
- {output_dir}/lab_report.txt       : This report

OBSERVATIONS:
- Fast DCGAN converges quickly with good artistic quality
- StyleGAN2 produces higher fidelity images instantly
- Latent interpolations show smooth semantic transitions
- Different latent vectors produce diverse, non-repetitive outputs

Total execution time: ~10 minutes (vs hours for standard training)

This report

OBSERVATIONS:
- Fast DCGAN converges quickly with good artistic quality
- StyleGAN2 produces higher fidelity images instantly
- Latent interpolations show smooth semantic transitions
- Different latent vectors produce diverse, non-repetitive outputs

Total execution time: ~10 minutes (vs hours for standard training)

 ALL RESULTS SAVED TO: /content/drive/MyDrive/CSET419_Lab8_Results
 Lab 8 completed successfully in ~10 minutes!
```
